and/or Pine Haven Water System Requiring	)	TIME AND
Certification as a Water Utility and the	)	RESCHEDULING
Posting of a Performance Bond	)	HEARING

This matter before the Public Service Commission of South Carolina (“Commission”) was initiated by a Petition from the Office of Regulatory Staff (“ORS”) to require Pine Haven Water System and/or Carroll Norman (“Pine Haven”) to obtain a Certificate of Public Convenience and Necessity. Pine Haven is the owner/operator of a public well and water distribution system providing water service to approximately 45 residential customers in the Pine Haven Subdivision and Garrett’s Landing located in Clover, South Carolina. In the instant matter, Pine Haven requests a ninety-day extension of time in order to gather additional information and secure a performance bond.

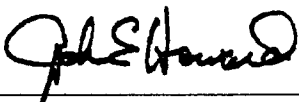

We find that allowing Pine Haven more time to gather additional information and attempt to secure a performance bond is in the public interest. Therefore, Pine Haven’s request for more time is granted, and the Commission’s Docketing Department has rescheduled the hearing in this matter to Wednesday, January 27, 2010, at 10:30 a.m.

This Order shall remain in full force and effect until further order of the Commission.
